

META MARKETS CAPITAL

REFUND & NO-CHARGEBACK POLICY

1. Service Nature

Meta Markets Capital (MMC) provides high-level educational consulting and operational framework design. All fees paid are for professional advisory time and the delivery of intellectual property.

2. Strict No-Refund Policy

Once a Strategic Navigation or Game Plan session has commenced, the service is considered "Fully Rendered" and non-refundable.

MMC does not offer refunds based on market performance, individual trading results, or a change of mind after the session has begun. The fee secures a dedicated time slot on our operational desk.

3. Chargeback Protocol

By completing a purchase, you acknowledge that the charge is valid. Initiating a chargeback without prior consultation with MMC is a breach of contract. MMC will contest all fraudulent disputes using timestamped booking records and signed acknowledgments as evidence.
